

THE CONDON GLOBE.

FRIDAY, MAY 13, 1892.

NOTICE.

The yearly subscription to the GLOBE is \$1.00, in advance. No deviation from this rule. The paper will be stopped at the end of the time for which it is paid unless further ordered and paid for. A blue pencil mark around this notice indicates that your subscription has expired, and if you wish the paper continued you should remit the amount as soon as possible.

GLOBOSITIES.

Read all the business locals this week. Miss Dora Downing has been on the sick list the last week, but is improving. Wm. Holder, State Grange Lecturer, passed through town this week en route to Lone Rock.

See the new ad of Halstead, Rinehart & Co., and learn of their wonderful tale—which they have to tell.

If you don't want your boy to turn out bad, don't "bar down" too hard on the grindstone.—Ran's Horn.

Dr. Nott, the Fossil dentist will be at Condon next Monday, 16th, and will remain ten days. Don't forget it.

A Washington dispatch says that the river and harbor bill passed the House Monday. A contract is required for the Cascade Locks completion.

Smith—Did your son pass his college examination without conditions? Jones—Yes; they said they'd take him under no conditions.—Boston Globe.

It is not work that kills men. It is thinking how to put in the longest time on the shortest jobs. That's what saps the human energies.—Texas Siftings.

Col. Lucas brought his wife home Sunday from Rock creek, where she visited the family of B. T. Snell a few days. Miss Josie Snell accompanied them home.

Mr. and Mrs. C. A. Danneman and family visited friends in Condon Saturday and Sunday. Wm. Snell and wife also visited friends in town the first of the week.

Charley Messner came up from Arlington a few days ago to help Gene Smith a couple of weeks in the harness shop, there being an unusual rush of business just now.

A grand military ball will be given at Condon, Friday evening, May 27th, under the auspices of H. Co. This will eclipse any ball yet given at Condon. Look out for posters.

Senator Rinehart (how does it sound?) went over to Mayville the 1st of the week and brought home his daughter, Mrs. S. A. Winsenreid, who had been visiting her relatives over there.

Under the artistic brush of Tom Johnson, "Senator" George W. Rinehart's new dwelling took on a coat of beautiful yellow and green this week, which adds much to its neat appearance.

W. G. Campbell of Colfax, who had been visiting his relatives here, the family of J. H. Downing several days, left Wednesday for his home. Mr. Downing accompanied him to Arlington.

The government ought to pension all sons of veterans who were born since the war. Think of the risks the poor boys ran! If their fathers had been killed they might never have been born.—Ex.

Born, Wednesday, May 11, 1892, to the wife of Supt. L. Parker at Fossil, a rip-sawing son, of democratic principles. Lucien now wears a smile as broad as the GLOBE editor's views on the Chinese Exclusion Act.

Miss Stella Johnson of Matney began a term of school Tuesday of last week in district 43—lower Ferry Canyon. At a meeting in that district last week, the people voted a \$300 tax for a new school house, which will be built at once.

Dr. Dan Hodgkin and wife arrived here last week direct from Vermillion, South Dakota, where they just disposed of some valuable property. Mrs. Hodgkin is a sister of Mrs. G. S. Clark. They expect to locate in this vicinity.

J. A. Richmond killed an enormous lynx near his place in Ferry Canyon a few days ago that measured nine feet in length—so J. A. says; and as he is noted for his truthfulness and veracity, it is not probable any one will doubt the area or map of the lynx in question.

The democrats and republicans of this county, recognizing the GLOBE's position as being read each week by every intelligent voter in the county, are advertising both tickets in its juicy columns. Notice them carefully, but don't try to vote for all of them at once, for it would ruin your health.

A number of town lots were sold this week. Mrs. H. C. Strickland and Mrs. T. J. Young each bought a couple of lots in the south end of town. Condon will double in size before fall, if only half the buildings are erected that are under contemplation. We would like to see the town spread out ½ mile in every direction within the next year, and the way the town is growing, it won't lack much of doing it.

Teachers' quarterly examination is being held at Condon this week by Supt. Parker, assisted by Miss Josie Snell. Following are the names of those being examined: Miss Hattie Hoover of Fossil; Mrs. E. I. French, Silas Keeney, Ross Mathews, Tommy Livingston and Frank Simmons of Mayville; Miss Laura Schilling of Matney Flat; and Misses Cordelia Keisner, Ethel and Sadie Parman, Blanche and Bessie Fitzwater of

Jas. Caldwell has been appointed road supervisor of this district, and our boys may expect to be treated one of these fine days to an invitation to exercise their muscles on the various highways hereabouts. Jim proposes to use a pike-pole in each hand with which to prod the boys along when they get to scratching gravel to vigorously, and to run them out of shady places. Boys working on roads, become very favorably impressed with the idea that it is better to not work too hard while young, so they will be stout old men.

A shocking and extremely sad death occurred at Fossil Tuesday evening. While C. E. Hunt, who was in the employ of F. M. Busby, was leading a mare from the corral to the barn, the animal became frightened and started to run, jerking him off his feet. Unfortunately the poor fellow's hand was caught in such a way that he could not free himself, and he was frightfully dragged about two hundred yards, breaking his neck. Mr. Hunt recently purchased the Stilson ranch just north of town, and was an industrious young man. He leaves a wife and one child, in rather poor circumstances.

This official intelligence factory is very thankful to Mrs. T. C. Keisner for a mess of excellent radishes—the finest we have had this summer (and the only ones). We want to encourage the people to work up a vigorous rivalry to see who can furnish the GLOBE with samples of the best of everything they raise that is good for eating purposes. Our efficient fruit editor, Dr. Hogan, announces that this office will, until the fruit and melon season opens, take all kinds of canned fruit and preserves, hams, etc., in exchange for puffs. He is also having the rubbish cleared away so that people will find it easier to back up their wagons to the back door of this office with fruit, melons, etc.

Good News for the Settlers.

The following circular was received last week at the land office at The Dalles. It is of importance to parties who desire to commute their timber culture claims:

U. S. LAND OFFICE,
WASHINGTON, D. C., April 29, 1892.
Register and Receiver, The Dalles, Or.
Gentlemen:—All commutation proof made before the receipt of this circular in which publication of notice has not been made, will be accepted if satisfactory in other respects, but in future, you will allow no commutation of timber culture entries without the required notice by publication and notice. If a day has been designated for the business of such proof in any case and the proof has not been taken, you will advise the party that publication of notice of intention to submit such proof will be required.

W. M. STONE,
Asst. Commissioner.

Beecher Flat Flabs.

Our school will begin in about a week, with Ross Mathews as teacher.

The weather has turned warm at last, and crops of all kinds could not look better than they do at present. Our farmers are sorry they have not a larger acreage sown in rye. Considerable corn will be planted in this section this season.

We understand Mayville will soon be "blessed" with a boom in the shape of a "distillery," the foundation for the same already having been laid. The county is progressing amazingly. Fossil can then furnish the bread, Mayville the booze, and Condon the molasses. No flies on the people of Gilliam!

We wish to gently remind some one in Condon—whom we do not know—that they had better get H. Co. out and drill them on the grade leading from 30-mile to Condon via Maddock's place. This road is in a dangerous condition, and it is all a good driver can do to keep a team on the ill-kempt trail. If it was a private road, we would have no kick coming; but as it is a public highway, the people have a right to insist upon it being kept in better condition.

Politics is pretty calm now, with the exception of several of our citizens who have quit the plow and their work and are discussing the "silver bill," together with all of its gerrymandering. They could accomplish just about as much if they would get up a vigorous discussion on "the aggressiveness of the hop louse on the North Pole." Our opinion is, if these parties would talk less and work more, they would find that the kind of silver that would yield therefrom would do more good than to simply talk about it. Thousands of good people could easily starve to death "talking" on this great silver question. GRANGER.

Junction Jottings.

Mrs. Thomas of Arlington is visiting the family of J. W. Maguire this week.

Mrs. Milton Hale of Haystack is visiting her many friends and relatives in this section.

Grace Cooke is able to resume her scholastic duties again, after a week's vacation, caused by sickness.

Judging by the large number of wool teams passing through our "town," it is evident sheep shearing is in full blast in the back country.

Rev. Sample of Pennsylvania, who has just travelled across the continent on a buggy, preached in the Schuttler Flat school house May 2d. He delivered a very interesting discourse to our people, on "Palestine," and also showed the children a box made of olive wood, in which was a shell taken out of the Med-

County Court Proceedings.

PROBATE.
Estate of Jesse Sperry—ordered that citation issue to sell real property.
Guardianship of Laura Pearl Weaver—ordered that inventory be filed.
Guardianship of McConnell heirs—ordered that report be filed.
Estate of Jas. S. Downer; J. E. Downer appointed executor; will ordered probated.

COMMISSIONERS' COURT.
Change in road No. 2, between Condon and John Maddock's place, allowed; road ordered opened.

Matter of bridge on Rock creek, at Butler's ford; specifications ordered filed and bids advertised for.

Matter of bridge on Thirty-mile at Jno Maddock's place; same order.

Polling place designated for Condon precinct, sheriff's office; Crown Rock, lower school house.

Rebates allowed: Z J Martin, \$140; J B Hollingsworth, \$510; L J Goodrich, \$1000.

E B Frum allowed until June 1st to collect school taxes.

F A Bauer, supervisor of road dist No 14, resigned; T C Mobley appointed.

Court decided not to erect a court house, but will enlarge or rebuild the jail.

Liquor licenses granted to Pat Skelly and J W Barr.

Reward offer for stock stealing, withdrawn, and notice in Fossil Journal discontinued.

J H Downing, supervisor road dist No 6, declined to serve; Jas M Caldwell appointed.

Mike White employed to dig county well ten feet deeper, at \$7 50 per foot, county to furnish material.

Clerk authorized to issue tax warrant for collection of delinquent taxes.

Rebates denied: H V Kirby and J A Walker.

J C Cooney, work on vault, 22 00

Matney Murmuring.

Shilling's ranch has a lonely appearance since the stage switches by, without even looking around to say hello.

Grain on the Flat looks healthy and vigorous since the weather changed to warm. Matney Flat against the world for rich, productive soil. There are yet thousands of acres of vacant land in this vicinity, awaiting to be filed upon.

Our enterprising neighbor, John Hanley, is having 50 acres of his excellent land plowed. Jack is a good fellow and neighbor, and judging from the manner in which he has been frisking round lately among the fair sex, it would not surprise us if he takes unto himself a better ½ before long.

Robert Poag and family have moved onto their place in Sixmile Canyon, where a stream of water as clear as crystal trickles by their cabin. It is a beautiful place to live. Mr. Poag's water supply on the hill was recently cut off by a very "obliging" neighbor, who, in order to show how mean he could be, filled up the spring and ditch with rocks and otherwise made himself extremely obnoxious. There is a very warm place prepared for such people.

Our school closed last Friday, after a very successful term of two months, taught by J. A. McMorris. He is an excellent instructor, and has, with one or two exceptions, given complete satisfaction here. A teacher, like an editor, can not please everyone. They must expect criticism from a few smart elks, who know exactly how a school ought to be run—but somehow they make a most dismal failure at everything they have ever undertaken. About the only thing such people succeed at, is finding fault with everybody else but themselves.

STRANGER.
"Keep it before the people," is what the dressey woman thinks of her new hat. And they generally do it.—Judge.

We have noticed that when a woman asks to be taken to the silk counter she speaks in a much louder voice than when she asks to look at the calico remnants.

JOHN H. DOWNING,

MY GOODS ARE THE BEST

MY PRICES THE LOWEST.

GENERAL MERCHANDISE,

GROCERIES,

DRY-=:GOODS,

TOBACCOS,

HARDWARE

And Everything Else Usually Kept in a First-class Mercantile Establishment.

CONDON, : - : OREGON.

ANOTHER WAR!

"LIVE AND LET LIVE"

IS OUR MOTTO.

A Few Green-eyed, Lazy Beer-guzzlers

who are jealous of our success, will tell you that our prices are high—

WAR PRICES!

But if you want proof that our prices are not high, come and see us; and we will furnish the proof. We admit that our prices are war prices, but it is OUR war prices on the old un-American, mossback system of selling you sugar "below cost" and cutting your throat when you buy anything else. That is not our way of doing business.

WE MEAN BUSINESS!

and when you have anything to buy, and have the money with which to buy, we will challenge your satisfaction.
